701-702, South Shahjahanpur, Dhaka - 1217

CAREER SUMMARY

Motivated and detail-oriented Graduate Software Engineer having hands-on exposure to real-world projects, with experience that stems from extensive theoretical and lab-based training in prototyping and development. Proficient in a diverse set of tools and technologies, including programming languages, web frameworks, database management, and testing methodologies. Eager to apply knowledge to real-world challenges, contribute to dynamic development teams, and grow as a professional software engineer in a collaborative environment.

SKILLS

Technical Skills

- Programming Languages (C, Java, JavaScript)
- Databases (Oracle, MySQL)
- Frameworks & Libraries (Spring Boot, React, React Native, NodeJS)
- Tools (Postman, GitHub, Figma)
- UX/UI Design (Figma)
- Cloud Computing (AWS, Azure, Docker)

Soft Skills

- Communication
- Teamwork
- Critical Thinking
- Adaptability
- Continuous Learning
- Attention to Detail

EDUCATION

Institute of Information Technology (IIT), University of Dhaka   2023 - Present
Executive Masters in Information Technology
CGPA: (TBA)

Islamic University of Technology (IUT)   2018 - 2022
Bachelor of Science (B.Sc.Engg.) in Software Engineering
CGPA: 3.11/4

National Ideal College   2016 - 2018
Higher Secondary Certificate
GPA: 5/5

PROFESSIONAL EXPERIENCE

Brain Station 23 Ltd.   Feb 2021 - May 2021
Software Engineer Trainee
Contributed to in-house Java Enterprise Edition Application Development with the FinTech Team under mentorship of industry practitioners

Responsibilities:

- Attending Scum Meetings and Training Sessions
- Learning and Developing *Java* Application with *Spring* Framework
- Contributing to in-house project with weekly debugging and code review sessions
- Gaining knowledge of trending technologies and development practices to find applicability scopes

PROJECTS

E-Commerce Web Application (Under Development)
A Full Stack Web Application project using *Spring Boot*

Student Information System
A Java Desktop Application project using *JavaFX, Scenebuilder, MySQL* with multiple Design Patterns
- Mini project for hands-on practical application of Design Patterns

IUTPlex (Team collaboration)
A movie ticket managing system with *Laravel, MySQL, HTML, CSS*
- Academic SPL Project with Hands-on experience with *PHP framework*
- Contributed to the backend development part which covered about 70% of the whole project

BlogApp
A mobile application for blogging service with authentication using *React native (Expo)* and *JavaScript*
- Academic SPL Project
- Full stack application with *Firebase* and session management with authentication feature implementation

ForgeApp (Team collaboration)
A Desktop application for multiple messaging platform integration with *REST API's* using *JavaScript* and *ElectronJS*
- Academic SPL Project
- REST API building that contributes 60% of the data to propagate within the application users

Speech to text converter
An android application using *Gradle, Android Studio*
- Used for text data collection and voice typing

CERTIFICATIONS

Oracle Certified Associate   **2020 - 2022**
Oracle Cloud Infrastructure Developer and Certified Cloud Operations Associate

Digital Security Agency and a2i Security Course   **2020**
Blended e-learning Course on Digital Security Essestials

Coursera MOOCs [10+]
- *Google Cloud Platform (GCP)*
- *Google IT Support*
- *Version Control with Git*

Google Hash Code 2021   **2021**
Team programming contest 1st round qualifier

Training Course On Android App Development, Graphics Design by NACTAR   **2021**
National Academy For Computer Training And Research (NACTAR)

INTERESTS

Cloud Computing | DevOps | Machine Learning | Cyber Security
